

DMCTECH SOLUTIONS (PTY) LTD

Corporate Identity & Website Design Brief

Prepared for: Graphic Designer & Website Developer

Purpose: This document provides the branding, messaging and website requirements for the development of the DMCTECH SOLUTIONS corporate identity and website.

1. Company Information

Registered Name: DMCTECH SOLUTIONS (PTY) LTD

Website Tagline: Engineering | Manufacturing | Precision Laser Cutting

2. Company Vision

To become one of Africa's leading engineering, manufacturing and industrial solutions companies by delivering innovative, reliable and world-class engineering services that support the mining, materials handling, manufacturing, energy, infrastructure and heavy industrial sectors.

We aspire to be recognised as the preferred engineering partner for organisations seeking precision manufacturing, technical excellence, innovative engineering solutions and long-term value.

Through continuous innovation, investment in advanced technologies, highly skilled people and internationally recognised engineering practices, DMCTECH SOLUTIONS aims to contribute to Africa's industrial development while expanding its presence across the continent.

Our long-term vision is to establish DMCTECH SOLUTIONS as a trusted African engineering brand delivering integrated solutions including engineering design, precision laser cutting, CNC bending, fabrication, conveyor systems, project engineering and specialised industrial services.

3. Mission

Our mission is to deliver engineering and manufacturing solutions that improve productivity, reliability, safety and operational performance. We combine engineering expertise, modern technology, precision manufacturing and customer-focused service to provide products and solutions of the highest quality while building long-term partnerships based on integrity, innovation and excellence.

4. Core Services

- Mechanical Engineering Design
- 3D CAD Modelling (Autodesk Inventor)
- Manufacturing Drawings & BOMs
- Precision Fiber Laser Cutting
- CNC Press Brake Bending
- Steel Fabrication
- Conveyor Systems & Components
- Transfer Chute Design
- Reverse Engineering
- Prototype Development
- Structural Steel
- Project Engineering
- Industrial Consulting

5. Target Industries

- Mining
- Bulk Materials Handling
- Conveyor Systems
- Manufacturing
- Industrial Plants
- Energy
- Construction & Infrastructure
- Agriculture
- OEM Manufacturers
- Engineering & EPCM Contractors

6. Website Structure

- Home
- About Us

- Services
- Industries we serve
- Projects
- Gallery
- Request a Quote
- Blog
- Contact Us
- Privacy Policy

7. Request a Quote Page Requirements

The quote page must allow customers to upload drawings (DXF, DWG, PDF, STEP), specify material, thickness, quantity, required services, delivery location and project notes. Include contact details and an enquiry form.

8. Home Page Hero

Headline:

Engineering Excellence. Precision Manufacturing.

Supporting Text:

DMCTECH SOLUTIONS is an African engineering and manufacturing company specialising in engineering design, precision laser cutting, CNC bending, fabrication and industrial solutions. We partner with clients across mining, manufacturing and heavy industry to deliver reliable, high-quality engineered products.

9. SEO Keywords

Primary keywords:

- Laser Cutting South Africa
- Laser Cutting Africa
- Engineering Company South Africa
- Mechanical Engineering Services
- Sheet Metal Fabrication
- CNC Bending
- Conveyor Components
- Conveyor Engineering
- Industrial Fabrication
- Mining Engineering
- Materials Handling Solutions
- Reverse Engineering
- Structural Steel Fabrication

- Engineering Design
- Autodesk Inventor Design

10. Brand Colours

Primary Blue: HEX #1E6FD9

Steel Grey: HEX #4B4F54

Charcoal: HEX #222222

White: #FFFFFF

11. Logo Design Brief

Create a clean, modern and timeless industrial logo. Use a simplified gear with a bold DMC monogram. Display the company name as DMCTECH SOLUTIONS. Avoid workshop tools or cluttered elements. The logo must work in full colour, black, white, horizontal, vertical and icon-only formats.
